How do I play?

I pressed all the tubes, and now everything is brown. What next?

Try pressing the POP! cookie. This will make other cookies

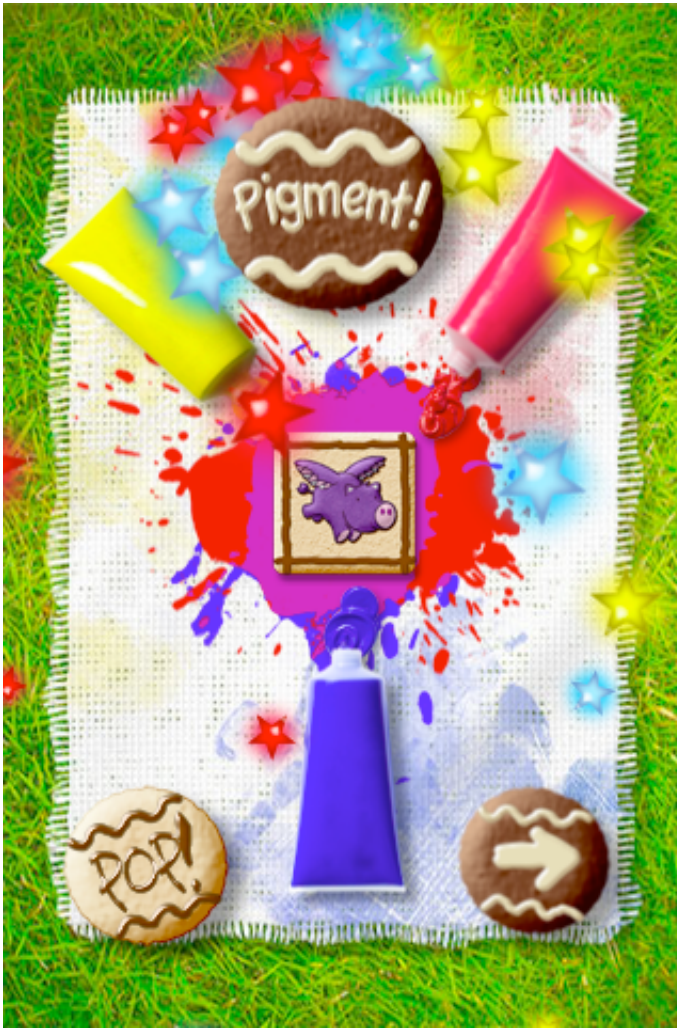

Support

appear!

OK I have a cookie. Now what?

Press the small, square cookie in the middle of your screen for fireworks, fun and an appearance by Pigment!

I'm at the main screen. How do I get back to the menu?

You can't. Once you're at the main screen (below), the only way out of this screen is to quit the app. This is to keep small fingers from wandering through your contacts, phone, and so on.

My children can't get enough. Help?

Pigment's Playpen, the full app, is coming very soon. Also, keep your eye out for Pigment's Playpen HD, and Pigment's Shapes and Letters (Lite, iPhone/iPod Touch, and HD for the iPad).

Who is Dr. Kriel?

Dr. Charles Kriel PhD is a writer and game designer. He is also a specialist in psychoanalysis and digital imaging, with an emphasis on Youth and Children's Media. He spent most of this century working in Youth and Children's for the BBC, and recently served as the United Nations WSA National Expert in New Media for the UK.

He made Pigment's Playpen Lite.

How do I contact the makers?

Press the Contact Me button at the bottom of this page.
